SENIOR ANALYST PROJECT  
DEVELOPMENT  
Sustainability Department

## 1. How did you get started at Maritime Electric?

I joined Maritime Electric in 2021 as Superintendent, Operations Support and Training in the Transmission and Distribution Operations Department. I am now in the role of Senior Analyst Project Development in the Sustainability Department.

## 2. What has been one of the highlights of your engineering career to date at Maritime Electric?

A highlight of my time at Maritime Electric has been the people and pride that came to the surface during the challenge of post tropical storm Fiona restoration efforts. The teamwork, determination, and perseverance shown by my colleagues was an incredible thing to experience.

## 3. Are there opportunities for regular professional development?

Maritime Electric provides regular professional development opportunities to all employees and are very receptive to opportunities to meet your unique professional development goals.

## 4. What would you tell an aspiring engineer or student about working in the utility industry?

There are so many opportunities to experience different parts of the business and different ways to contribute to the future of the industry.

All our energy.  
All the time.
